

Festival TT Pre Tech Stations

Pre Tech inspection is strongly recommended for all Festival Time Trial drivers.

Pre-tech will save you time on Thursday, and may uncover problems you want to fix before the event. While the Speedway is relatively easy on tires, there are substantial brake zones that require your brakes to be in great shape.

The window for Pre Tech opens March 24 and closes April 6, and needs to be done **AFTER** your last track day before the Festival.

Below is the contact information for the currently approved Pre Tech stations. More may be added.

Call early for an appointment within the Pre Tech window.

Please check 2010 [Zone 8 Time Trial rules](#) to insure you are in compliance. There have been changes.

Down load the Supplemental Time Trial Forms including the Pre Tech forms [here](#).
